Music Workshop: Anibal Troilo - Contrasts & Intensity by Helmut Höllriegl @Milonga Central

Helmut [helmut@tangoinsideout.com](mailto:helmut@tangoinsideout.com)

Milonga Central Bäckerstraße 16

Next edition: Anibal Troilo, 9 March

Troilo is always one of my favourite moments at the milonga. The colours of his music are the most contrasting ones in the tango repertoire. Soft, strong, playful, dramatic, even aggressive sometimes, abstract, reduced, dreamy &ndash; he uses everything.

As Pugliese he likes to surprise us and to continue differently than we might expect. I guess that's why some people label this music as challenging. Speaking about myself I can only say that I like to be surprised and that I find this very inspiring for dancing. Maybe it helps to have an idea what the surprises might look like&hellip; &#128521;

This time with special guest Milos Avramovic to give some live demonstrations.
